

"Hi Partners!

We need your help. As we navigate through the upcoming weeks, we will remain laser-focused on the safety and well-being of our Customers and Crew. With that being said, we are seeking your support to help promote the message to our local community that we are still open and ready to serve them with safety being our top priority.

All of our locations are currently open for Drive Thru and Takeout. I have our social media ad attached that we've been using and any help that you can offer, we would greatly appreciate it. Thank you for your loyalty and unwavering trust in us. Stay safe!
